

Finding and Accepting Referrals from Central Intake (Non-ShelterPoint Users)

Log into ServicePoint and view your Dashboard.

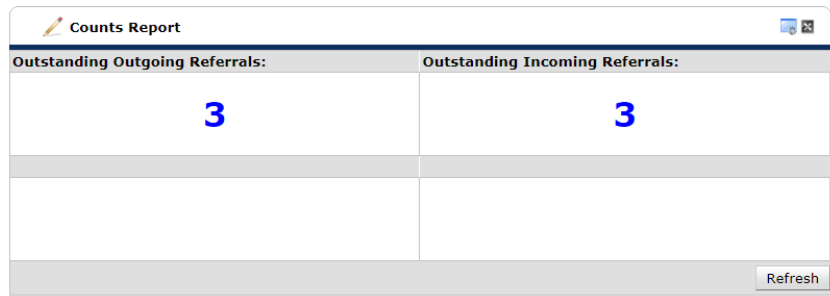

1. You will need to customize your dashboard to show referrals.

2. Select **Add Count Reports**

3. Add **Incoming Referrals** and **Outstanding Incoming Referrals** for (your program) using the pencil.

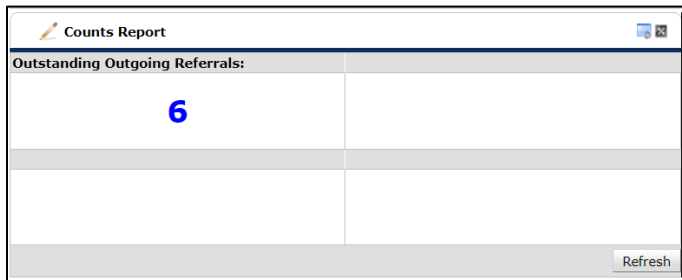

4. You can select to see these referrals by day, week, month, or quarter. Monthly is recommended based on the time (a few weeks), it can take to service a persons need.

5. You will want to have the *Follow Up List*, and *Count Reports* visible on your Homepage.

- Each individual client in a household will appear as an “outstanding referral” until it is addressed.

Partners can also Customize their Dashboards to keep track of incoming and outstanding referrals on their homepage by various time frames, and by program.

Where else can Partners find referrals?

In the Reports Tab, there are two main reports that will help you keep track of referrals: *Service Transactions* and *Referrals Report*.

The screenshot shows the 'Reports > Report Dashboard' interface. On the left is a navigation menu with options: Last Viewed, Favorites, Home, ClientPoint, ResourcePoint, ShelterPoint, Reports (selected), Admin, and Logout. The main area is titled 'Report Dashboard' and contains a section for 'Provider Reports' with a grid of report tiles. The tiles are: Call Record Report, Client Served Report, CoC-APR, Coordinated Entry APR, Daily Unit Report, Data Quality Framework, ESG CAPER, Needs Report, PATH, and Referrals (highlighted in yellow). A 'Service Transaction' tile is also visible at the bottom left of the grid.

To look for unserved needs and referrals you can run separate reports or run a *Service Transactions* report to show both together.
